AHN CANONSBURG
Hospital

AHN doctors and clinical specialists work in multidisciplinary teams to provide personalized, comprehensive care for each patient, close to home – with access to clinical trials for the newest therapies.

CARDIOVASCULAR INSTITUTE

We keep hearts beating with new medicines to fight heart disease. Patients receive personalized treatment for heart failure, arrhythmia, pulmonary hypertension, and thoracic and lung disease.

- Patients benefit from cardiac education, screenings, prevention, and rehabilitation.
- AHN Canonsburg offers innovative testing, assessments, and heart care customized for women.

EMERGENCY MEDICINE

We offer critical 24/7 access to highly skilled emergency care, coordinating with EMS and emergency transport through our Prehospital Care Service team.

- LifeFlight® helicopters from five regional locations provide lifesaving care and fast patient transport with a helicopter stationed on-site.

MEDICINE INSTITUTE

Treatment for a wide range of conditions, including allergies, lupus, diabetes, Lyme disease, digestive issues, dental care, skin conditions, breathing disorders, and sleep disorders.

- These treatments improve outcomes and quality of life for individuals with breathing conditions through pulmonary rehabilitation.
- Testing and treatment for sleep disorders can be provided at home or in our outpatient sleep lab.

ORTHOPAEDIC INSTITUTE

High-quality specialized care for orthopaedic injuries and complex musculoskeletal conditions helps patients regain mobility and health.

- We offer new therapies for comprehensive, coordinated concussion care.
- Elite sports medicine specialists help athletes overcome injuries and return to the game.
- For joint replacement, we use muscle-sparing, a minimally invasive procedure, with advanced pain management.

SURGERY INSTITUTE

Through the latest laparoscopic technologies, more patients have minimally invasive options for surgery, which may give them a faster recovery, less pain, and a shorter hospital stay. We offer:

- Surgical expertise to treat complex colorectal conditions.
- Innovative surgical techniques to help patients with complex hernias.
